SoftGuard™ Medical Chair

Featuring Soft, Non-locking Restraint Straps

SPECIFICATIONS, Full-Sized Model -

- One-piece box steel welded frame for long life and durability
- Handles people from 80 lbs. to 400 lbs.
- Chair weights 80 lbs.
- Chair dimensions, 45-1/2" Long, 28-1/2" Wide, and 42" High (fits through a standard 30" wide door)
- Chair dimensions on a standard pallet for shipping, 48" Long, 40" Wide, 46 inches High
- Shipping weight with a pallet is 110 lbs (we use 150 lbs.)
- Heavy duty 8" diameter wheels with a rated capacity of 350 lbs. each
- 18" Hook 'n Loop soft restraint straps at the wrist, ankle, and elbow for secure restraint of detainees while providing maximum comfort
- Elbow straps ensure full-restraint of detainee
- No locking mechanisms for quick release of detainees in urgent situations
- Memory foam headrest reduces chances of head injuries and provides greater comfort
- Parking brakes on wheels keep the chair in place during the restraint process
- High density polypropylene skid plate mounted underneath the foot plate allows for easier chair rotation (not intended for transport).
- Shoulder straps do not cross the chest and therefore do not restrict breathing
- Chair is easy to use and adjustable for most sized people
- Keeps detainee and handlers SAFE!

SPECIFICATIONS differences, Junior-Sized Model -

- Chair dimensions, 45-1/2" Long, 26-1/2" Wide, and 42" High (fits through a standard 28" wide door)
- Ankle and wrist straps are 14" Hook 'n Loop soft restraint straps for secure and comfort of smaller detainees
- All other specifications and features of the Junior Chair are identical to the full-sized SoftGuard Medical Safety Restraint Chair™
